THE STANDARD

TUESDAY, JANUARY 6, 1880.

Special Telegrams

O'Gorman to Standard.

Montevideo, Jan. 5, 1880.

President Latorre has obtained the

temporary leave of absence from office

to attend to his health. In the

message he sent to the Committee

of the Legislature to request said

leave, he states that public peace is

secured, and that neither in or out

of the country can any attempt be

tried to alter it. A decree has just

been issued to the effect that Sr.

Francisco A. Vidal shall, as Presi-

dent of the Senate, assume the post

of President of the Republic during

his (Latorre's) absence.

Nothing is said as to the Ministry,

and it is presumed that the actual

will continue in office. The new

President will probably issue a

decree to that effect.

Nothing said as to the day ap-

pointed to receive the Hon. Mr.

Monson.

THE BRITISH HOSPITAL.

A collector of subscriptions for the

British Hospital has sent us a letter

reflecting on the committee of man-

agement; nevertheless, we consider it

our duty to call the attention of the

committee to the matter, confident

that any well-founded complaint

will be inquired into.

The management of the British

Hospital for the past few years has

been so signally successful that the

gentlemen who discharge this im-

portant trust may point with satis-

faction to the annual reports pub-

lished and the emancipation of the

institution from chronic deficits and

debts, which, after all, is no insignif-

icant result when we take into con-

sideration the smallness of our com-

munity and the expensive character

of the Hospital.

The nature of the complaint

against the Hospital Committee in

the letter sent us is altogether too

general. Our correspondent, in part

of his letter, says: "There is a rooted

dislike to the management; it is

selfish, high-handed, very bad, and

the crockery shops as if it had been

bought up cheap at some defect

'fondra' or cooking depot action."

What our correspondent means

by 'selfish' management of a pub-

lic eleemosynary institution we in-

terpret as an economical adminis-

tration free from slovenliness; but

we find it more difficult to define

the charge of high-handedness, since

it aims at something beyond the ca-

tegory of crockery-ware or nursing;

and had this letter of 'Collector'

avoided epithets barely allowable in

a letter of this kind, it is probable
